

lcons.

We produce the item to your wishes choosing from a variety of standard colours or special requirements (colour sample or Pantone). Be it translucent, opaque, daylight colours, with glitter or metalic effect.

There are no limits to your colour request. All our colours correspond to the applicable regulations and directives in Germany and the EU. Address the realization of your ideas to us with confidence.

Legal notice.

Our catalogue is only intended for buyers who wish to use the goods and services exclusively within the scope of their independent professional, commercial, official or business activities and not for private individuals. All information on goods and services is non-binding and does not constitute a legally binding contractual offer, but only a so-called "invitatio ad offerendum" (an invitation to submit an offer). If prices are stated in the catalogue, these are indicative and non-binding industry prices in EUR (for stand see back of catalogue) plus statutory VAT. In addition, if applicable, there are costs for finishing and other ancillary costs such as packaging, shipping and transport costs, customs duties etc., as well as (if applicable) the statutory value added tax. The product illustrations are not binding. We will be pleased to send you a sample for a precise assessment of the guaranteed properties and functions as well as the colour accuracy of a product. This sample is binding for placing an order. In the case of articles with advertising imprint, we will be pleased to provide you with a proof sample for binding

approval of the print, the printing stand and the product characteristics. All articles with customer imprint shown in this catalogue are only for the performance presentation of the printing technology and for reference purposes. The rights to the illustrated logos and brand names as well as to the illustrated custom-made products belong exclusively to the respective copyright/brand owners. Please note that in the case of set items which are marked "Made in Germany" or "Made in Europe", it is possible that not all individual components of the set are manufactured in Germany or Europe. However, it goes without saying that the main manufacturing or processing steps for sets marked accordingly are carried out in Germany or Europe (depending on the marking). Only the laws of the Federal Republic of Germany apply to the contractual relationship. The UN Convention on the International Sale of Goods (CISG) and the referral provisions of German international private law (IPR) shall not apply. Errors and misprints reserved.

Thinking ahead and developing further. Our clear competitive advantage is our in-house production at the sites in Bavaria, Germany and Europe. Through state-of-the-art production techniques and dedicated employees, we are able to offer the best quality, high efficiency, competitive prices and an exemplary eco-balance. Individual processes and subsections can be monitored precisely and production sequences can be matched – which offers additional advantages: short delivery times, high project flexibility and reliable adherence to schedules.

Quality Made in Germany.

Quality Made in Europe.

Everything, worldwide, simple. Loyal to our location, we strengthen production »Made in Germany« - at the same time, we follow international innovations and trends to expand our extensive product range. As an experienced importer, we have a well-developed global network of suppliers and partners. We thus have an excellent global network and use innovative supply chain management within reliable international structures.

FOR NEW THINKING.

In economic, ecological and social terms: Because what we do today determines what the world will look like in future. We are therefore committed to a holistic sustainability strategy and to products that fulfil these standards.

Plant-based bioplastic.

MADE IN GERMANY

What is bioplastic?

elastoNature plastics are environmentally friendly alternatives to conventional plastics.

elastoNature consists of carbohydrates (e.g. maize or sugar cane) mixed with mineral fillers.

The basic building material of the plant-based plastic is carbohydrates, which are converted into plastic through chemical processes. The carbohydrates thus replace crude oil.

They are bio-based, can be biodegradable or long-lasting and offer a more sustainable option for reducing dependence on fossil raw materials in plastics production. The market for this has been growing for several years.

Benefits.

- ✓ Durable and robust bioplastic.
- √ Free from harmful substances such as BPA, PFAS, formaldehyde or phthalates.
- √ 100% recyclable.
- ✓ Dishwasher-safe.
- √ Sustainably produced in Germany.

Our product selection made from bioplastic.

save tomorrow.

Put an end to unnecessary waste with our reusable takeaway boxes. They are the sustainable alternative to disposable packaging and offer enough room to hold and safely transport both warm and cold foods! Our products are 100% **MADE IN GERMANY.**

Practical boxes - special colors.

Does it taste best at home?

Our menu boxes for take-away portions.

Ideal for those with a sweet tooth!

Refillable cup for a portion of ice cream.

Dip it! For all those who can't live without ketchup, mayo and co.

The world looks a lot better with a coffee in your hand.

Complete freedom without deposit system.

- \checkmark One-off costs due to purchase.
- ✓ Own promotional item with individualisation.
- ✓ Quality Made in Germany.
- ✓ Return to the recycling process and use of recycled material.

The box has had its day?

Give it to me!

We recycle together! Once our boxes have done their job, we take them back free of charge and recycle them completely. The recycled material is turned into a wonderful new item and the cycle starts all over again.

By using recycled material, we actively conserve resources. In this way, we increase the sustainability of our products and set an example for the responsible use of plastic. This is our contribution to protecting the environment.

Shake it up! Ideal for a protein shake after training. This shaker contains a closable drinking aperture and an embossed measurement scale in 50ml increments. It also comes with a removable sieve, so a thorough shake is all that's needed for the perfect mix of protein powder and liquid. This shaker also has a screw-off compartment which can be filled separately. It can be completely disassembled, making it very easy to clean. Fill quantity (shaker without additional compartment): 0.4 litres.

01857 with removable pill compartment!

What is ISCC?

ISCC (= International Sustainability and Carbon Certification) is an independent, global certification system on a voluntary basis covering the entire supply chain. It identifies the extraction of resource-conserving raw materials and the ecologically valuable products made from them.

Why ISCC PLUS?

ISCC PLUS is the certification system for globally operating companies in non-regulated markets that offer final products.

Our ISCC PLUS certified polypropylene.

Bio-circular Material is obtained from waste sourced from forestry, agriculture and the food industry. Raw materials include: waste cooking oil, straw, forestry waste, pine oil.

Our items made from ISCC material.

^{*} Roughly 10% addition of conventional raw material required for production and roughly 3% addition of colour pigments.

Let's recycle together: Our innovative recycling process.

1. Return.

We offer high-quality plastic items made using robust materials. But once our products have fulfilled their duties, we are happy to receive them back free of charge, and recycle them fully. All the plastic items we produce can be cleaned and sent back to us at the end of their life.

2. Separation by type.

We separate the items to be recycled by colour and type, and grind them up. The resulting granular material enters the production process.

3. Delivery into production.

Due to the separation-by-type process and the unchanged structure of the plastic, the recyclate can be added back into the production process without problems. Hardly any other material has such incredible properties.

4. A new item.

The recyclate is used to make a new item, and the cycle begins again. Recycled materials that we don't use ourselves are made available for the production of secondary products, leading to the creation of dustbins, for example.

Products made from 100% recycled material.

The new recycling series impresses with high-quality materials and all that "Made in Germany". The elegant products offer space for personalised messages and are easy to clean and robust.

Valuable trays

Anti-slip honeycomb structure provides a particularly secure grip. Both the top and bottom sides are perfectly suited for IMould finishing.

✓ BPA free and without harmful plasticisers.

✓ Made from recycled material.

- ✓ Individually finishable.
- ✓ Production with our own green electricity and 100% recyclable.
- Sustainable production in Germany.

Menu card- and Beer coaster holder

High-quality menu card holders (square or round) and beer coaster holders with large advertising space on both sides.

Car Organizer

For those who love organisation.

Practical organizer for less chaos in the car.

Ice scraper

Remove ice from windscreens in no time at all. Sturdy and handy ice scrapers in various designs and with a large advertising space.

Practical helpers

Whether shopping trolley tokens or tyre tread gauges, these gadgets make everyday life easier and offer the perfect place for advertising.

Through the use of recycled materials, we can actively conserve resources. This increases the sustainability of our products and sets an example for the responsible handling of plastics.

07041 Beer bottle crate "Six Pack"

Safety for life - competent solutions for challenging issues.

Stay safe, stay healthy. We present the expansion of our product range to include a variety of protective articles – including in-house mask production 'Made in Germany'. Originally launched in response to supply bottlenecks during the coronavirus pandemic, our specialisation in this area enables us to react quickly and flexibly to challenging issues. We stand for fast and uncomplicated production in compliance with the highest quality standards.

Respiratory Mask.

FFP2 and FFP3.

CERTIFIED

In accordance with Regulation (EU) 2016/425 and the European EN 149:2001 + A1:2009 standard. **ALSO INCLUDES PRINTED MASKS.**

01992 Respiratory Mask "easy2breathe" FFP2 NR

Our quality promise.

- Production and Material 100% Made in Germany.
- High-quality processing in accordance with European standards.
- Highest standards with regard to environmentally-friendly and hygienic production processes, packaging and storage.
- Uncompromising and consistent quality checking for the most exacting requirements and security.

Your benefits.

- The use of high-quality German filter fabrics means that there is no need for redundant additional filter layers. This makes breathing and the long-term wearing of the mask much more pleasant than with the majority of other models.
- Safe and effective protection for the wearer against particles, liquids and solid aerosols.
- Free from glass fibres, latex and odours.
- Extra skin-friendly non-woven fabric with very low breathing resistance, a higher level of comfort and an exceptional fit.

Respiratory masks – production on request.

01493 Face visor "Protection"

Generous facial shield offering a high level of comfort. The visor folds up, with 4 different levels. The size of the strap can be adjusted thanks to a snap fastener. The clear visor can be removed from the headband and replaced, which enables simple cleaning. Protects the eyes, mouth, and nose from aerosols, liquid splashes, and dust. Visor 5-Pack - Refill Pack 01494

Plastic/PET-G + PP

260 mm x 235 mm x 220 mm

20 Unit, Polybag

01458 Facial shield "Premium"

Generous facial shield offering high comfort. Size-adjustable due to the flexible elasticated band and the clamp, which can be used to adjust the band length. The transparent shield can be separated from the head bracket in order to replace it. The soft foam at the forehead ensures a pleasant feel against the skin. Protects the eyes, mouth, and nose from aerosols, liquid splashes, and dust.

225 mm x 200 mm x 145 mm

01496 Mouth and nose shield "Gastronomy"

With its large size, this mouth and nose shield protects the wearer and those in the vicinity from aerosols and fluids that may be emitted when talking. Its large chin resting area and adequate supply of fresh air make it extremely comfortable, and especially suitable for use in the gastronomy sector. The shield can be separated from the holder on the chin and easily cleaned with a damp cloth and/or disinfectant. The shield can also be replaced as required. (01543 - Replacement visors, set of 5)

Plastic/PP + PET

150 mm x 110 mm x 70 mm

50 Unit, Polybag

These "Safety" protection glasses will win you over with their functionality and design. The scratch-resistant lenses are made from high-quality tritan, ensuring that they can deliver high comfort for a long time. They are break-resistant and offer reliable all-round protection for the eyes thanks to their raised lenses. Also suitable for people who wear glasses. Individually boxed. Compliant with (EU) regulation 2016/425 on personal protective equipment, Class II (protection against moderate risks) EN 166:2001.

GER

Plastic/Polycarbonate

166 mm x 30 mm x 40 mm

50 Unit, Individual carton

01522 Protection glasses "Protection"

The "Protection" protective glasses will impress you with their functionality and design. The TPE frames fit the contours of the face. The exceptionally clear lenses are made of PC and feature an anti-scratch-coating. The integrated ventilation slits in the frame prevent the glasses from fogging. The wide and stretchy strap can be flexibly adjusted in length using the tabs, offering exceptional comfort. Certified in line with (EU) Regulation 2016/425 for personal protective equipment, category II (protection against medium risks) EN 166:2001.

174 mm x 84 mm x 69 mm

01491 Key fob "Safe contact"

Perfectly suitable for contactless operation of light switches, PIN pads, cash machines, or opening doors. This key fob can easily be attached to your keyring, ensuring that it is always on hand and ready for use. Reusable, as it can be cleaned with detergent and even disinfectant.

GER

Plastic/Polystyrene

100 mm x 50 mm x 3 mm

01492 Mask holder "Comfort", medium

Avoid painful ears after wearing your mask for a long time. This holder shifts the load away from sensitive ears and towards the back of the head. It is suitable for use with all commonly used breathing masks. Thanks to the number of hooks, your mask can be perfectly adapted to fit the size of your head. The mask holder can be cleaned with a cloth and detergent. It can also be cleaned with disinfectant. This ensures that it can be reused any number of times.

01740 Mask holder "Comfort", large

Plastic/Polypropylene

145 mm x 25 mm

Plastic/Polypropylene

184 mm x 25 mm

Customised solutions in all branches of industry.

Whether it is 3D prototyping, individual or overall project work, technical advice, repairs or the supply of spare parts - elasto offers individual options as well as comprehensive service from a single source.

Flexibility and speed are top priorities at elasto toolmaking: Thanks to "Made in Germany" production and modern machinery, 5-axis CNC milling, wire cutting, deep-hole drilling, die-sinking EDM and rapid prototyping are possible.

We turn your ideas into reality with unique branding.

We create and develop the complete solution based entirely on your ideas and requirements, ensuring that everything is 100% customised and from a single source. We give your ideas a special edge. Within a very short time, we are able to produce unique articles ready for series production. We place particular emphasis on customer proximity and personal consultation throughout the entire process.

314

Preparation for production.

Development, technology and quality.

- Creation of a 3D design and determination of the printing dimensions.
- Inspection and project approval by Factory Audit (manufacturer qualities, QM system, production execution).
- · Finalisation of printing dimensions and embossing fields.
- · Creation of 3D prototypes and samples.
- · Conduct of adhesive and behavioural testing.
- Sampling of the desired colour shade.

The manufacturing process.

Production and finishing.

- · Tool sampling.
- · Finalisation of the quantities.
- Production in the injection moulding shop in 3-shift operation.
- Customer approval based on a pre-production sample in the ongoing manufacturing process.
- Extensive visual inspection of all production parts.
- Determination of the finishing process in the print shop.
- Production in 2-shift operation.
- Meticulous quality control of the printed products.
- Production of instructions, stickers, etc.
- If necessary, assembly of individual parts.
- · Quality control.

Completion.

Service from the beginning to the end of the order. And beyond.

- Final product inspection.
- Packing in polybags and outer cartons.
- · Labelling according to required standard.
- · On-time delivery, if desired in partial deliveries.

Guidelines & Regulations.

Toys.

All offered children's toys comply with the European Directive 2009/48/EC on the safety of toys and the EN 71 series of standards. Toys may be unsuitable or dangerous for children of a certain age due to their function, dimensions, features, characteristics or other reasons. To further improve safety, the toy comes with warnings informing the consumer of the potential danger posed by the toy.

The following are the warnings that apply to the individual articles. Next to the offered items in this catalogue are small numbers that match the listed warnings.

- Attention! Not suitable for children under 3 years, because of small parts that can be swallowed. Choking hazard!
- 2. Attention! Not suitable for children under 3 years. Risk of injury due to long cord.
- Attention! Not suitable for children under 3 years.
 Danger of strangulation and tripping due to long cord.
 Do not use near power lines or during thunderstorms.
- 4. Attention! Use under the direct supervision of adults. Not suitable for children under 3 years. Danger of falling! The Schneeflitzy requires great skill in steering and braking, so learn to use it on flat, safe terrain. Use only by one person at a time.
- Attention! Use only in shallow water under adult supervision. This is not a buoyancy aid! No protection against drowning!
- 6. Attention! Do not aim at eyes or face.
- 7. Attention! Use under the direct supervision of adults. Liquid can be swallowed!
- 8. Attention! Sharpener contains a sharp edge due to its function. Risk of injury!
- 9. Attention! Not for transporting children!

0+ to 8+

All information with ",+" is to be understood as an age recommendation or as an educational note.

Sporting items, fan items, decorative items.

The sports, fan and decorative items offered in this catalogue are sold as such. In order to prevent possible confusion with toys, these items are marked with the following inscription.

Sport "Sporting goods - Not toys!" **Fan** "Fan items - Not a toy!" **Deco** "Decorative items - Not a toy!"

REACh.

All offered articles comply with the European Regulation No. 1907/2006, Registration, Evaluation, Authorisation and Restriction of Chemicals. The EU's objective is to produce and use chemicals in such a way as to minimise adverse effects on human health and the environment.

Customer information.

We hereby confirm, in accordance with Article 59 (1, 10) of the EC- Regulation number 1907 / 2006 (REACh), that articles delivered by us do not contain substances of the candidate list above 0.1% mass. We undertake to regularly compare our products with the substances specified in the candidate list in accordance with the REACh Regulation. Insofar as we determine that our products comply with Art. 33, we will inform you about this immediately and take appropriate measures in individual cases.

General information.

Please understand that we do not have the items in stock in all colours of our standard colour palette. Ask our sales staff for the available colours, minimum quantities and colour surcharges. We print exclusively with physiologically harmless inks. The disposal of the paints and screens is carried out in a closed system. Screens are recycled after use for technical reasons. For repeat orders, the sieve must be recreated and calculated.

For imprints, we need a copyable black-and-white original or a film 1:1, with transfer motifs reversed. In the event of necessary changes to your originals or multi-colour films, we will charge you the lithographic costs incurred by us. However, we will inform you in advance and make the changes only with your permission. It is also possible to create individual designs and final drawings on request. These will be invoiced by us at cost. An exact reproduction of the desired shade depends on the colour and condition of the item. For darker surfaces, white may be required.

Deliveries to new customers and abroad are made against prepayment or cash on delivery or irrevocable letter of credit.

The contractual relationship shall be governed exclusively by the laws of the Federal Republic of Germany. The UN Convention on the International Sale of Goods (CISG) and the referral provisions of German Private International Law (IPR) do not apply.

Errors and misprints excepted.

Current Situation.

Significant global constraints and delays remain in global supply chains. In addition, there is a shortage of freight rates from Asia to Europe. These circumstances are beyond our control and we have no control over them. Despite the best possible planning and constant communication with our suppliers and freight forwarders, delivery delays and price adjustments due to increased procurement costs unfortunately may continue indefinitely. Should this be the case, we reserve the right to adjust the prices and/or delivery dates mentioned in the catalogue accordingly. Unfortunately, this cannot currently be avoided and we ask for your understanding.
